

From George Frederick, 11th Sq mate, email of 6/21/2017: “ Bill was a rock. Solid guy, smart, good football player and friend to everyone.”

From Dean Hess, classmate and football team member: “Bill always had a smile.”

From Bill Porter, 11th Sq mate, email of 06/22/2017: “I stood in awe of Bill Hentges, for being powerful, modest, and a wonderful natural intelligence. It made such sense to me that he was recognized as an Academic All-American. What really moved me was his easy bearing and entire lack of swagger. Had it ever occurred to me to change myself into a more compliant and successful cadet, I'd have studied his attitude, and, as even today, looked into the sciences and activities that comprised his successful bearing. Modest and powerful; a loss of what seems particularly important currently on the national scale.
